Five Star Wireless Expands Service in Kerr County, Texas.

In their continued effort to provide outstanding wireless service for residents of Kerr County, Five Star Wireless, recently added two new cell sites. The new cell sites will improve coverage along **Highway 27 between Ingram and Mt. Home**, enhancing coverage in the town of Ingram and service towards the town of Hunt. Other areas of increased coverage include **Harper Road near Tierra Linda**.

Five Star Wireless continues to invest in their network as part of their commitment to provide its' customers with the best wireless service available. Technicians from Five Star Wireless conducted test calls while traveling throughout the area and report the service is "second to none."

The new towers are equipped with **CDMA technology** which offers enhanced phone services including improved voice and call quality, longer battery life for phones, and a larger selection of phones with capabilities including camera options, text messaging, downloadable ring tones and games.

Bill Stacy, General Manager for Five Star Wireless, stated "These new cell sites will also add extra capacity to our network so that we can continue to add new customers with the all new nationwide rate plans we recently introduced that included **unlimited nationwide nights and weekends.**"
